

Companies are constantly faced with complex decisions during their day-to-day operations. It is the outcomes of these decisions that shape a company into a successful player in the global marketplace. **GS Research** can assist you with the necessary corporate finance tools and analysis, which are crucial for making the correct decisions.

Our goal is perfectly aligned with yours: maximization of company value through the optimization of company risks.

Our corporate finance services include, but are not limited to:

- Mergers & Acquisitions (M&A) advisory;
- Listing and delisting of public companies;
- Investment feasibility studies;
- Company valuation;
- Project valuation.
